About Us

Since its inception in 2014, Expert Power has been a trusted partner to deliver highly skilled calibration support in Saudi Arabia. The trust on us is built by three key factors – the state-of-the-art calibration laboratory we own and operate, maintaining good customer relationships, technical and professional competence. We are committed to your precise measurements.

Vision

Provide Quality services to enhance processes and competitiveness of the measurement and testing industry, enabling them to deliver reliable services of International standards.

Mission

To support industry with trust and integrity by delivering accredited quality assurance services conforming to industry best practices and continuous process improvement as per international standard for global acceptance.

What we do

Calibration

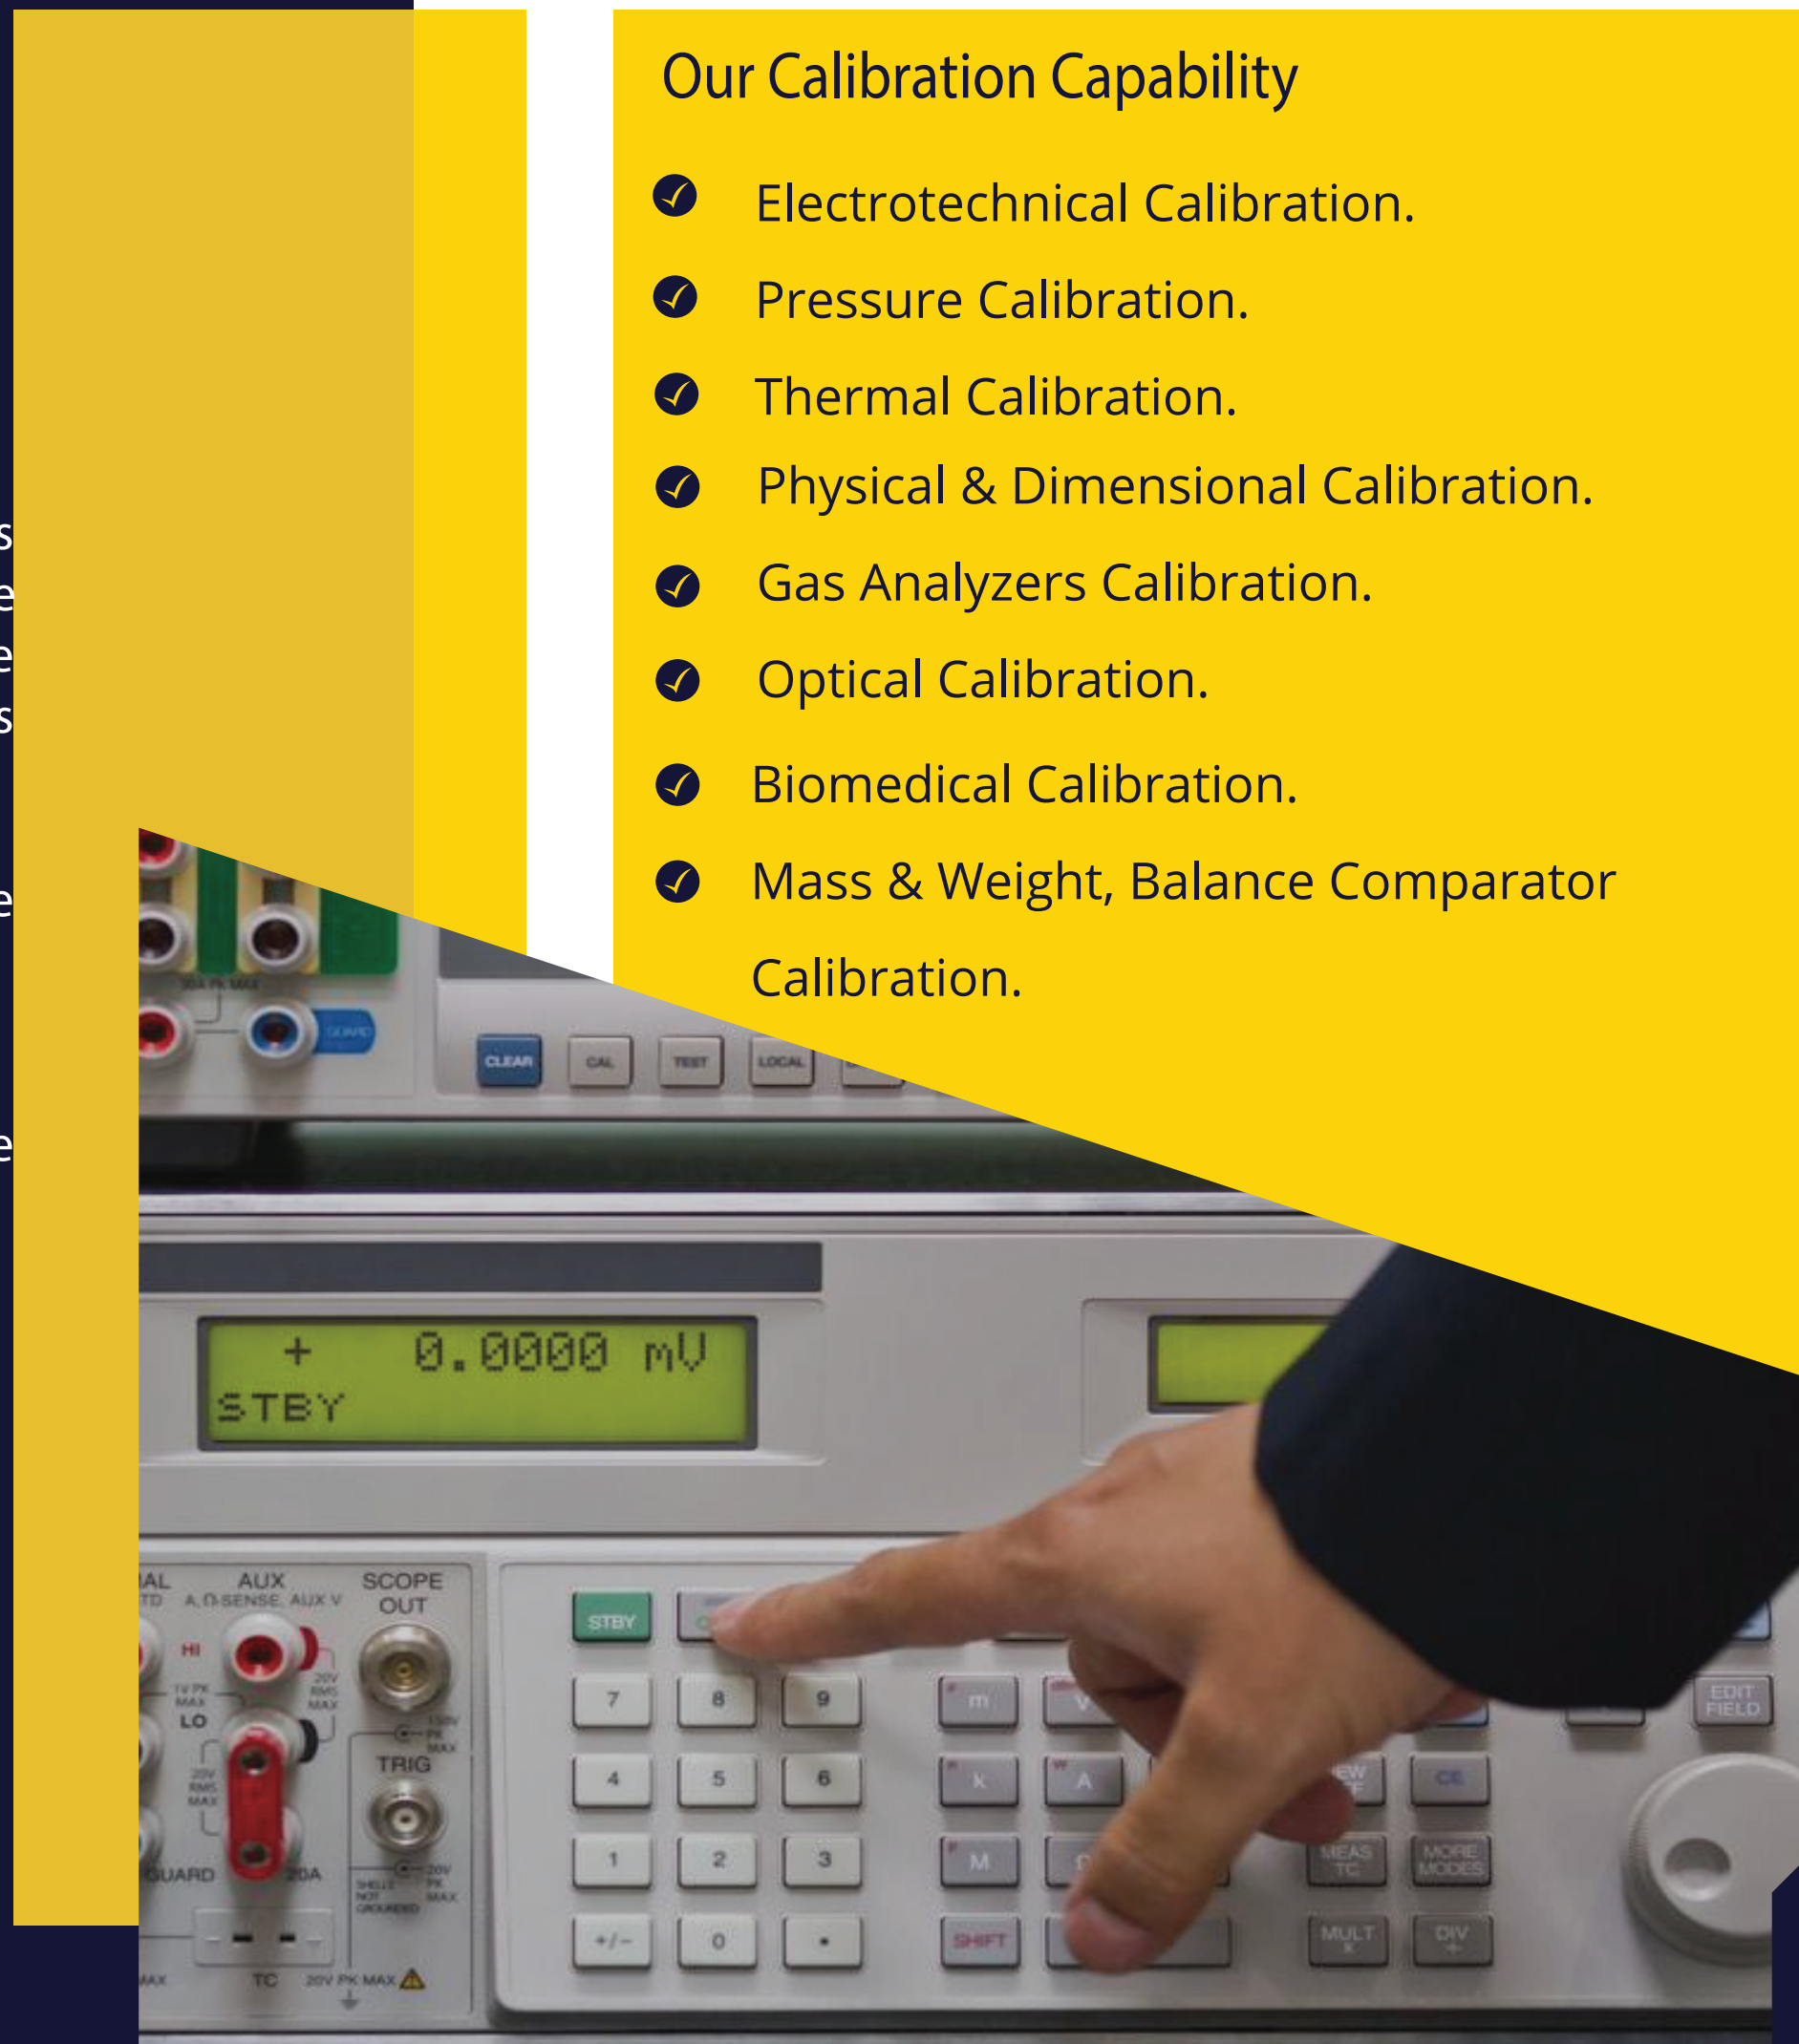

All measuring instruments, testing equipment's undergo wear and tear with time, routine calibration will ensure the health, performance and life of your instruments/equipment's and so your business.

It may look as an additional expense, but the consequence of working with inaccurate instruments are often more expensive.

So be precise in your measurements. We're the one-stop-shop for all your calibration needs.

Our Calibration Capability

- ✓ Electrotechnical Calibration.
- ✓ Pressure Calibration.
- ✓ Thermal Calibration.
- ✓ Physical & Dimensional Calibration.
- ✓ Gas Analyzers Calibration.
- ✓ Optical Calibration.
- ✓ Biomedical Calibration.
- ✓ Mass & Weight, Balance Comparator Calibration.

"W-Edwards Deming"

You cannot inspect quality into the product; it is already there.

Instruments **Repair**

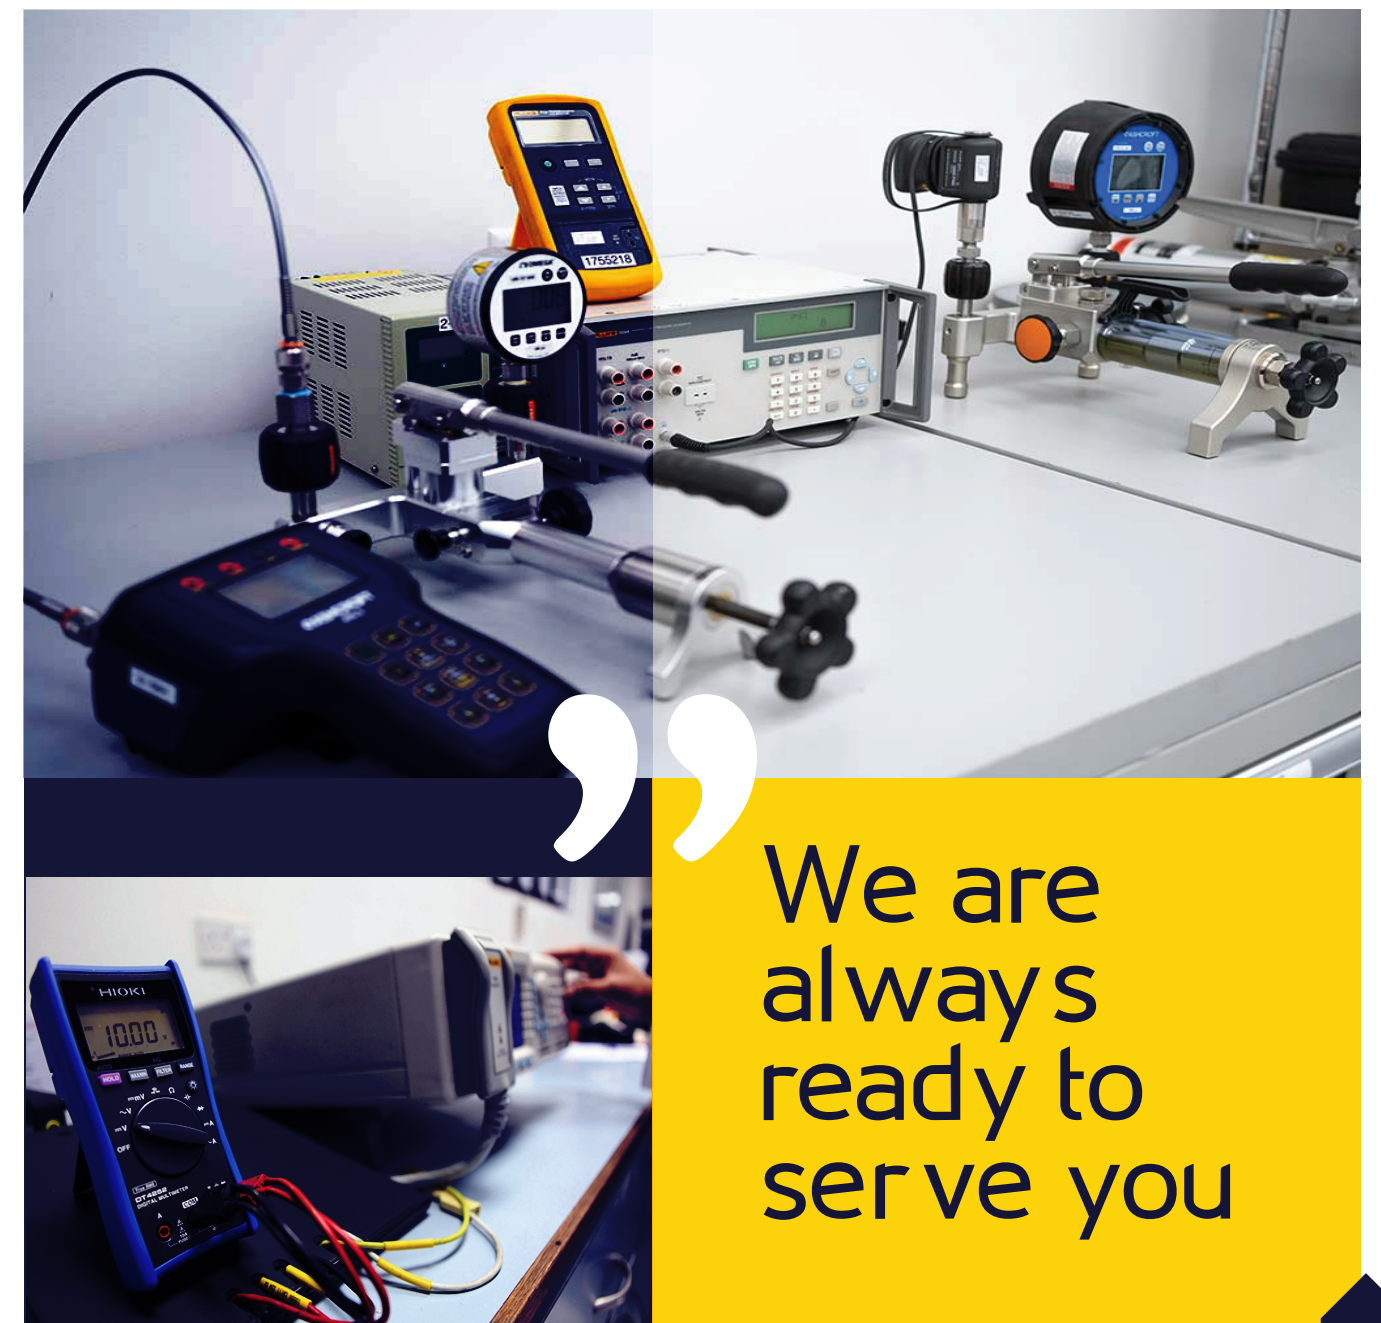

We have a comprehensive repair facility to complement our calibration services. We can repair a wide range of equipment's from general purpose test equipment to more specialized equipment's.

As we are able to repair the majority of instruments we calibrate, we are often able to offer our clients not only a significant saving but also a much faster turnaround when compared to the Manufacturers.

Wide ranges of spares are stocked, with facilities to locate distributors of high cost, low-volume components in place, ensuring an efficient turn-around on repairs.

Instruments **Rental**

Renting test & measurement equipment from Expert Power is a quick and convenient way to reduce cost and maintenance without having to purchase a unit. Our trusted rental services provide pre-calibrated, ready-to-use equipment delivered to you in a flexible way that meets your needs.

We are
always
ready to
serve you

Engineering

Testing & Preventive Maintenance

Other than calibration services we also provide testing, maintenance, troubleshooting and repair of LV electrical switchboards. Unlike mechanical installations, electrical installations produce little or no noise while in use.

As such, many may tend to overlook the importance of maintenance until blackout or hazardous emergency occurs. At Expert Power, we believe that your switchboard is one of the most important pieces of equipment.

A switchboard functioning at its best is crucial to prevent any malfunctions from happening. There are a few components to ensure a switchboard is working perfectly: its initial installation and its subsequent maintenance. Our services utilize our expertise and experience in handling the maintenance of switchboards.

Power System Analysis

- ✓ Overcurrent device coordination studies
- ✓ short circuit studies
- ✓ load flow studies

Drafting

- ✓ Electrical Lighting & Power Socket
- ✓ ELV – Security, Data, Telephone
- ✓ Fire Alarm, Emergency Light
- ✓ Cable Tray containment
- ✓ Load schedule
- ✓ Mechanical – HVAC drawings, Heat Load Calculations
- ✓ Revit – 2D to 3D

What we sell

We are authorized distributors for a wide range of new electrical test equipment's and Measuring instruments, that comply to international electrical standards. We offer a fair and competitive price with traceable calibration certificates, so worry free, All you have to do is contact our expert pre-sales support and choose right equipment from our collections based on your testing and measuring needs.
